Dear FCC Members:

I am a subscriber to XM Radio and place high value on their Instant Traffic and Weather Reports.

I understand that the NAB -- National Association of Broadcasters is urging you to prevent XM Radio from offering this important service. In today's competitive media world, it would not be good public policy to restrict XM Radio from making this content available to its subscribers.

Above all, the NAB should not be permitted to dictate what I am permitted to hear.

I respectfully urge you to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that I need and deserve.
